

FORWARD, TOGETHER 2021

LANL
FOUNDATION
FORWARD, TOGETHER.
Investing in Learning & Human Potential

We are thrilled to be celebrating the 25th year of the LANL Foundation in 2022! Reflecting on the last 25 years, and on 2021 in particular, we are touched by the hearts of all the people we work with. They feel like a big loving family to us — members of a small and closely-knit community — although we operate within a vast seven-county region. New Mexico often feels like a small town. There are so few degrees of separation between us, especially in Northern New Mexico!

We are grateful to the founders of the LANL Foundation — management at Los Alamos National Laboratory (LANL), the Regents of the University of California (UC), the Department of Energy (DOE), Los Alamos Public Schools and the New Mexico congressional delegation — who laid the foundation for this amazing organization that continues to thrive 25 years later.

2021 was a remarkable year. Coming out of our quarantines, we were able to be in person again and re-connect with each other — our old friends, colleagues and donors — in ways that nourished our souls. Our students, teachers, administrators, families and children, day in and day out, overcame pandemic challenges in ways that speak to the resiliency and strength of Northern New Mexicans. The LANL Foundation staff also rose to the challenges by making modifications to work and lifestyle to be sure that all programs kept moving forward to benefit the students, teachers and others.

As you will see in this Annual Report, our communities thrived during 2021, donors were generous and our non-profit partners continued to provide vital services. With great determination and fortitude, schools and students pivoted the ways they did things in order to accomplish their goals.

During 2021, the LANL Foundation Board also was hard at work. These dedicated community and business leaders developed a Board Policy on Diversity, Equity, Inclusion and Belonging. It took six months and many meetings to create this policy that fully expresses the LANL Foundation’s commitments and values with respect to diversity, inclusion, equity, and belonging. Specifically, it addresses the Board’s formal roles and responsibilities as well as its leadership role and influence on the Foundation, its partners, and the communities it serves.

The opening paragraphs of the Policy states:

“Equity brings about a just society when all belong as their unique selves, all are free to express themselves, and underrepresented voices are elevated. Individuals, communities, and identities exist within a spectrum of advantage and disadvantage, and what may be an advantage in one context may be a liability in another. In alignment with our mission, we believe that equity is achieved when conditions are designed and fostered to redress historical inequities, and to facilitate the equal probability of success of all—now and in the future. We recognize that success may be uniquely defined in each case, and that initial deprivations and privileges are often the context for the myriad definitions of success.”

We are proud of this new policy and will use it as a framework in all aspects of our work.

With deep gratitude to our wonderful donors and immense appreciation for the collaborations and partnerships we have participated in during the past 25 years with schools, students, caregivers, tribal nations, families, and non-profits, we now see ourselves as a catalyst for bringing people together to do so much more for our infants, students, and families.

Because of you, and the thousands of people we have the privilege to know and serve in this beautiful place we all love, we are poised to catalyze bold changes in educational systems within the region and continue providing career pathways and scholarship opportunities for our youth.

We are moving Forward, Together!

Jenny Parks, President and CEO
Elmer Torres, Chair of the Board of Directors (2021)

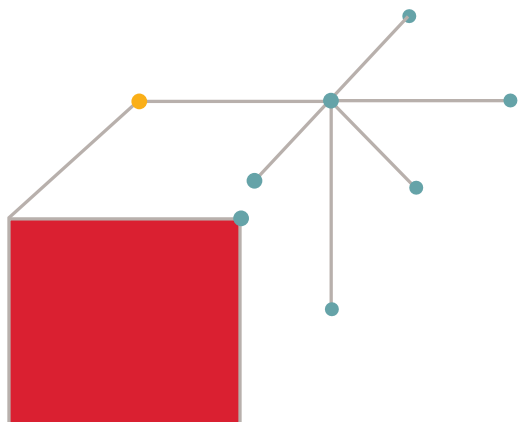

Early Childhood The Early Childhood Program is committed to strengthening children, families, and communities in a culturally respectful way. By supporting children (prenatal to three) and their families through leveraging family support systems such as home visitation, families are empowered to raise mentally and physically healthy, happy, and thriving children. The Early Childhood Program has developed four projects that emphasize collaboration, advocacy, and education as well as address the importance of the first three years of a child's life and the formative years of brain development that impact a child for years to come.

Highlights

- We were awarded four grants to support our work, including one (\$140,000) from the W.K. Kellogg Foundation that supports education, training, and early childhood systems building and capacity within eight Pueblos in Northern New Mexico.
- We provided stipends and mentorships (\$15,000) to 10 women who are continuing their early childhood education.
- Staff participated in national and statewide initiatives, including Ascend at the Aspen Institute (a catalyst and convener for systems, policy, and social impact leaders in early childhood), Pritzker Children's Initiative PN3 Steering Committee, Georgetown University's Academy for Research, Clinical and Health Equity Scholarship (ARCHES) Fellowship, UNM Tribal Data Champions and WKKF Community Leadership Network Fellowship.
- Our team successfully started Grandparents/Kin Raising Children, the first council in the state to support grandparents and kin raising grandchildren. The eight-organization council from Rio Arriba County distributed \$300 stipends (100 of them) to grandparents/kin in need of support.
- We provided 22 educational trainings to 448 people, including community partners, leaders, families, and tribal communities, that were focused on topics such as brain development, early childhood development, guidance, health and nutrition, relationship building, grant and report writing and much more.

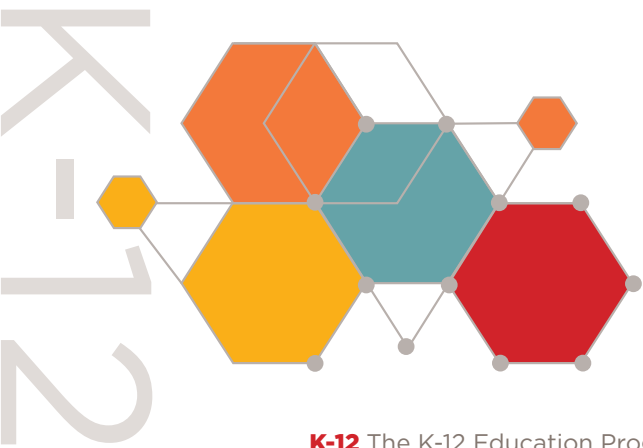

10

WOMEN WERE PROVIDED STIPENDS AND MENTORSHIPS FOR CONTINUING THEIR EARLY CHILDHOOD EDUCATION

22

EDUCATIONAL TRAININGS WERE PROVIDED TO 448 PEOPLE, INCLUDING COMMUNITY PARTNERS, LEADERS, FAMILIES, AND TRIBAL COMMUNITIES

719

ISEC INQUIRY SCIENCE CURRICULUM MODULES WERE DELIVERED TO CLASSROOMS

K-12 The K-12 Education Program, which serves 19 public school districts as well as tribal schools and non-profits, has two main goals: Promoting the social and emotional well-being of students and teachers and preparing/growing teachers and educational leaders. These goals are accomplished through efforts including the Thriving Students Program, a social emotional learning (SEL) professional development program offering a framework that supports educators to implement trauma informed practices within their classrooms; enhancing teachers' skills through participation in the National Board Certification for Local Teachers Program; and recognizing teachers' achievements through the Rio Arriba County & Pojoaque Excellence in Teaching Award. The Inquiry Science Education Consortium (ISEC), the LANL Foundation's flagship K-12 program, provides Inquiry STEM (science, technology, engineering and mathematics) curriculum focusing on physical and earth sciences for students in grades K-6 throughout Northern New Mexico.

Highlights

- A three-year Thriving Students pilot was completed in five elementary schools in Española.
- Thanks to generous support from the Los Alamos National Laboratory and Triad National Security, LLC, 18 additional teachers were supported to pursue their National Board Certification, a total of 50 teachers are currently being supported.
- We partnered with Española Public Schools and the Institute for Teaching and Leading to provide a two-day professional learning opportunity with district staff and principals that focused on building community and setting intentions for the 2021-2022 school year.
- We supported 114 new ISEC Teachers from seven districts and 48 elementary schools for Teacher's Institute, a four-day institute that focused on guiding educators in inquiry-based pedagogy and delved into curriculum and resources to guide them and their students in hands-on exploration of scientific phenomena.
- ISEC Inquiry Science Curriculum Modules were delivered to 719 classrooms.

114

NEW ISEC TEACHERS FROM 7 DISTRICTS AND 48 ELEMENTARY SCHOOLS WERE SUPPORTED

The LANL Foundation's Scholarships Program supports students from Northern New Mexico in their pursuit of undergraduate degrees and professional certifications. Scholarship recipients include students enrolling in bachelor's degree programs immediately after high school and adults and non-traditional students seeking to return to formal education, complete a degree or certificate, or change careers. In addition to recognition and financial assistance, scholarship recipients benefit from affiliation with a robust community of LANL Scholars, alumni and supporters.

Highlights

- We awarded \$806,500 in scholarships to 127 outstanding Northern New Mexico students. Since its inception in 1999, the Scholarships Program has awarded more than \$9 million to over 1,900 scholars.
- The LANL workforce generously donated \$382,711 to the Los Alamos Employees' Scholarship Fund, and Triad National Security granted the LANL Foundation \$172,500 to provide scholarships for students with significant financial need.
- The Professional Mentoring Program, which matches students with seasoned mentors in their intended field of study, was expanded in its second year to include 20 mentors and 20 mentees.
- Approximately 50 first-year and transfer students participated in the LANL Scholars Student Ambassador Program at University of New Mexico, New Mexico State University and Santa Fe Community College. This program provides services, workshops and resources to LANL Scholars during their transition to college.
- Thirty-nine LANL Scholars participated in the LANL Summer Internship Program, gaining valuable paid work experience and bolstering the LANL workforce pipeline of talented local students.

\$806,500 IN SCHOLARSHIPS TO 127 NORTHERN NEW MEXICO STUDENTS

The Scholarships Program is supported by an incredible group of volunteers who give hundreds of hours of their time each year.

\$100,000

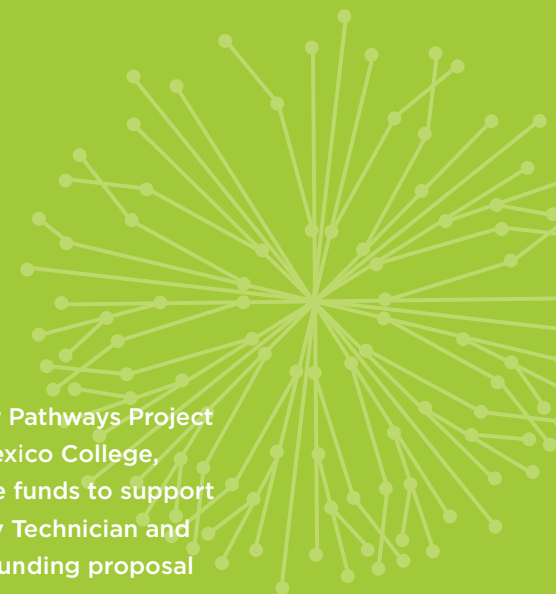

GRANT FOR ESPAÑOLA PUBLIC SCHOOL DISTRICT

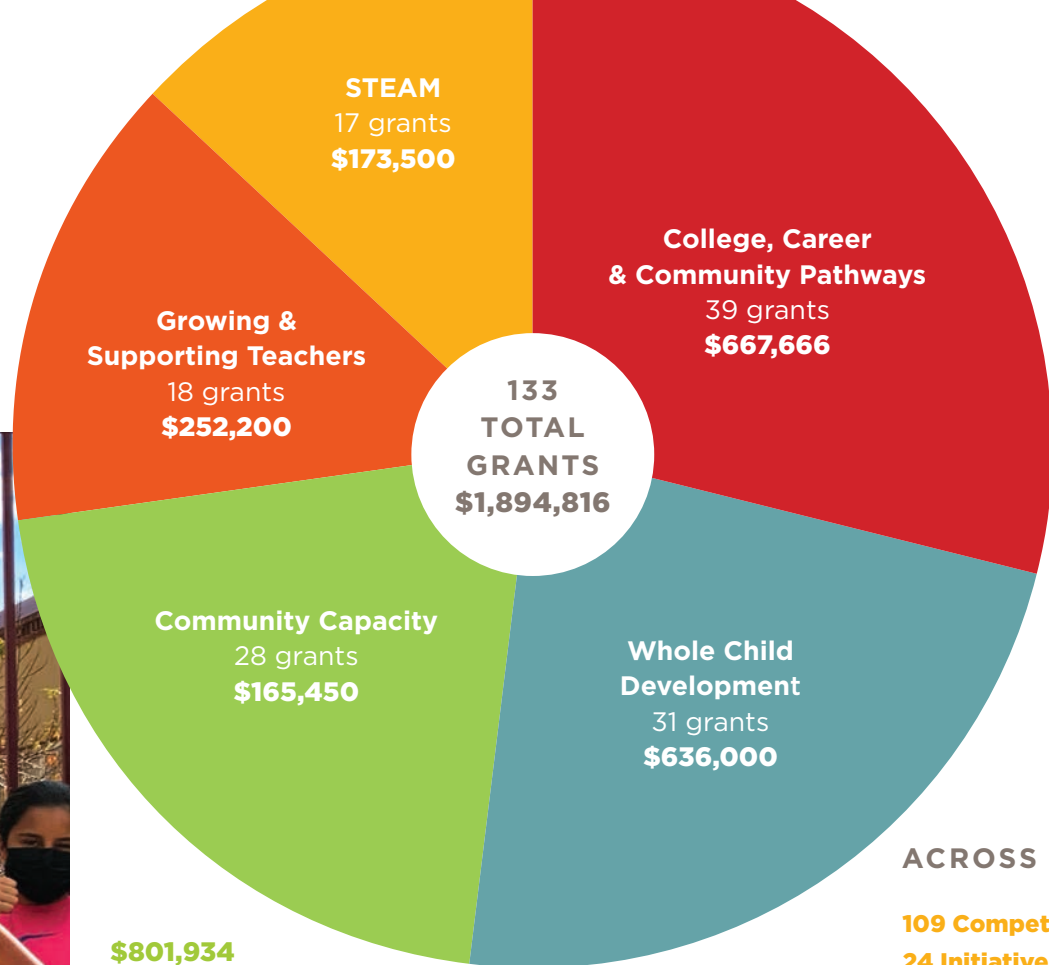

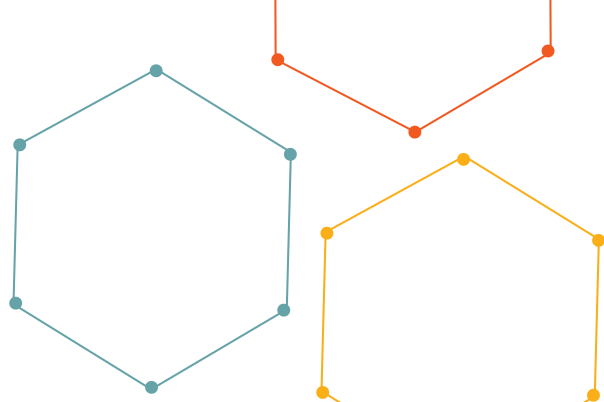

The College, Career, and Community Pathways (C3P) nurtures the potential of Northern New Mexico students and adult learners through initiating and supporting collaborations and partnerships aimed at increasing equitable access to educational and career opportunities in our communities. At the heart of the C3P Program is providing direct support to partners, facilitating collaboration among organizations, and transforming systems to enable people to pursue their interests, build their skills, contribute positively to their communities and thrive.

Highlights

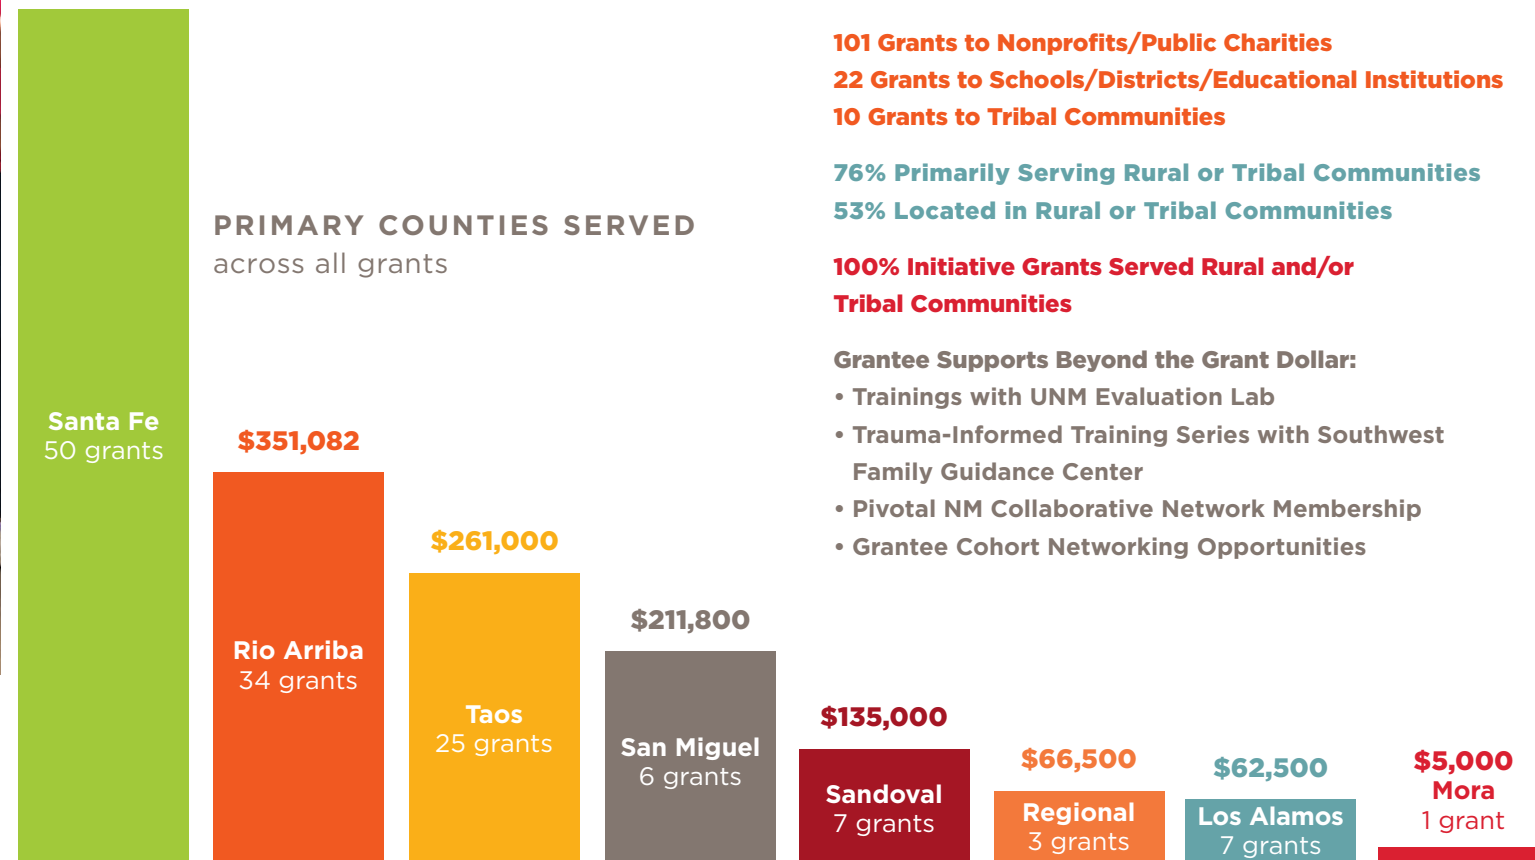

- We coordinated and helped the Española Healthcare Career Pathways Project partners (Española Public School District, Northern New Mexico College, Española Presbyterian Hospital and LANL Foundation) raise funds to support the planning and implementation of a Certified Phlebotomy Technician and Medical Assistant career pathway programs. We drafted a funding proposal for the Española Public School District that resulted in a \$100,000 grant from the Con Alma Health Foundation.
- We are working with several partners to transform high schools across New Mexico to include the elements of the successful comprehensive college and career pathways approach in ways that also respond to the Martinez/Yazzie findings. We were integrally involved with creating the NM Comprehensive College and Career Pathways Assessment Report. As a result of this effort, Governor Michelle Lujan Grisham's Executive Budget recommendation included a \$10 million request to the NM PED to implement some of the recommendations from this report.
- We helped launch and provide backbone support to the Northern New Mexico Coalition for Work-Based Learning composed of 28 individuals representing employers, non-profit organizations, workforce training entities, philanthropy, secondary and post-secondary education, tribal and state governments.
- We brought five funders together to pool over \$70,000 in grants to support expansion of the effective Future Focused Education X3 Internship Program in our region.
- As co-founder of the New Mexico Broadband Collective, we completed a grant to Groundworks NM to assist tribes with broadband funding applications and support digital equity and inclusion efforts. We also co-hosted two statewide broadband summits, supported a fundraising campaign to raise \$500,000 for the Collective's Broadband Equity Fund and \$100,000 for the Technical Assistance and Grantwriting Fund and provided a \$75,000 grant to support the Cultivating Our Own to Lead tribal broadband workforce development project.
- We co-founded and provide backbone support to the Northern New Mexico Pathways to Opportunity Strategy Table, whose ten partners are working to expand and improve access to college, career and community pathway opportunities for youth of color, opportunity youth, young parents and other underrepresented youth in Northern New Mexico. We secured \$77,500 in funding to support the Table's work.

\$801,934

PRIMARY COUNTIES SERVED across all grants

ACROSS ALL GRANTS

- 109 Competitive Grants — \$1,060,600
- 24 Initiative Grants — \$834,216
- 101 Grants to Nonprofits/Public Charities
- 22 Grants to Schools/Districts/Educational Institutions
- 10 Grants to Tribal Communities
- 76% Primarily Serving Rural or Tribal Communities
- 53% Located in Rural or Tribal Communities
- 100% Initiative Grants Served Rural and/or Tribal Communities
- Grantee Supports Beyond the Grant Dollar:
 - Trainings with UNM Evaluation Lab
 - Trauma-Informed Training Series with Southwest Family Guidance Center
 - Pivotal NM Collaborative Network Membership
 - Grantee Cohort Networking Opportunities

133 GRANTS 107 NON-PROFITS, SCHOOLS, AND TRIBAL COMMUNITIES \$1,894,816 TOTAL AWARDED

We are tremendously grateful to the many contributors who enabled the LANL Foundation to provide much needed support for families and children throughout our region during this challenging year. Several LANL Foundation programs rely heavily on the generosity of donors. Financial support comes in many forms, including annual giving, gifts of stock or property, and planned gifts. Individuals who make a planned gift to the LANL Foundation become members of the Legacy Society and will be recognized in perpetuity as having made a commitment to the long-term success of the Foundation.

\$1,064,476 TOTAL FUNDS CONTRIBUTED

Highlights

- Legacy giving totaled \$2.1 million.
- The LANL Foundation welcomed the following new members into the Legacy Society:
 - Sally Fritz
 - Marie-Louise Hadden
 - Daniel Lyons & Laura Zerbe
 - David Lyons & Laura Mullane
 - Michael Lyons & Michelle Webster
 - Howard Menlove
 - Ellen Morris
 - Jill Warren
- The Regents of the University of California, Texas A&M University System and Battelle Memorial Institute, together as Triad National Security, LLC, the Managing and Operating Contractor for LANL, granted \$700,000 to the LANL Foundation to fund Growing and Supporting Teachers in Northern NM, STEM & Career Pathways and LANL Scholarships.
- Los Alamos National Laboratory workforce donated \$382,711 to the Los Alamos Employees' Scholarship Fund. Total funds contributed to the scholarship fund were \$1,064,476.

I am incredibly grateful and moved by the generosity of our donors this year. Every single donor helped the LANL Foundation make a significant impact and create access to important resources for learners in our region. In spite of the challenging circumstances we all faced in 2021, our donors remained steadfast in their support and pulled together in a profound effort to uplift our community. These donations will continue to make an impact for years to come and for that I give a heartfelt THANK YOU.

TONY FOX,
VP of Institutional Advancement & Scholarship
